Summary

BSc (Hons) Computer Networking and IT Security graduate with hands-on experience in technical support, software QA, cybersecurity, and web development. Comfortable working with Linux, networking, troubleshooting, scripting, and common development tools through professional work and personal projects. Looking for an opportunity to apply my technical skills, work on real-world problems, and continue developing as an IT professional.

Work Experience

Security Analyst Intern

08/2024 – 11/2024

Tanvi Tech

- Assisted with web application and network vulnerability assessments and penetration testing.
- Used Burp Suite and Wireshark for security testing, analysis, and documentation of findings.
- Researched security best practices and supported efforts to strengthen application and network defenses.

Technical Support

08/2023 – 04/2024

Dynamic Technosoft

- Provided ERP technical support, diagnosed client issues, delivered user training, and supported client onboarding.
- Tested ERP software, documented defects, verified fixes, and collaborated with developers on improvements.
- Used SQL queries to investigate issues and validate data integrity and application behavior.

Projects

Web Application Penetration Testing Framework 🔗

Python · Tkinter · Bash · Nmap · SQLMap · XSSStrike · Nuclei

Developed a GUI-based web application security assessment framework integrating multiple security tools, automated scanning workflows, result visualization, and structured reporting.

E-Commerce Website

HTML · CSS · JavaScript

Developed interactive web functionality including content management, user interaction, and cross-browser testing.

SQL Injection Security Testing

Burp Suite · PortSwigger

Conducted controlled SQL injection testing covering Union-based, Error-based, and Blind SQLi techniques.

Education

BSc (Hons) Computer Networking and IT Security

2022 – 2025

Islington College

Kamal Marg, Kamalpokhari, Kathmandu

A-Level

2019 – 2021

Chelsea International Academy

Kathmandu, Nepal

SEE

2019

Sayapatri English Secondary School

Parasi, Nepal

Skills

Programming

Python, Java, JavaScript, SQL, Bash

Networking

TCP/IP, DNS, DHCP, Firewalls, Troubleshooting, Cisco Packet Tracer

Cloud & DevOps

AWS, Azure, Docker, GitHub, Linux

Cybersecurity

Vulnerability Assessment, Burp Suite, Wireshark, Nmap, Nessus

Web Development

HTML, CSS, JavaScript, VScode
